2021-23 Ford F-150 Passenger Seat Harness Installation Guide

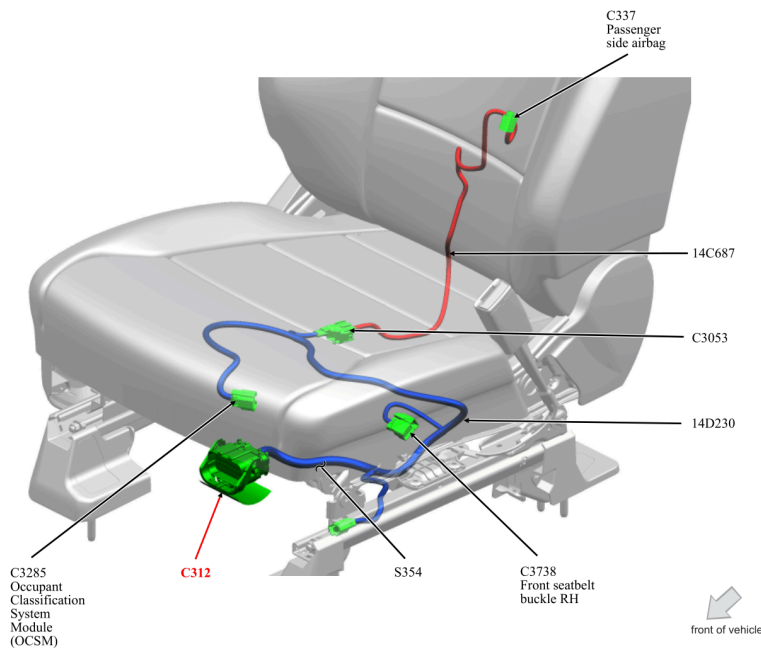

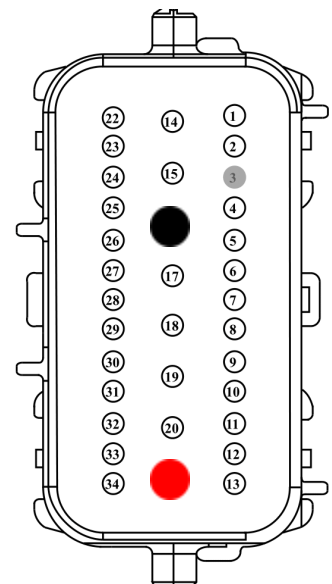

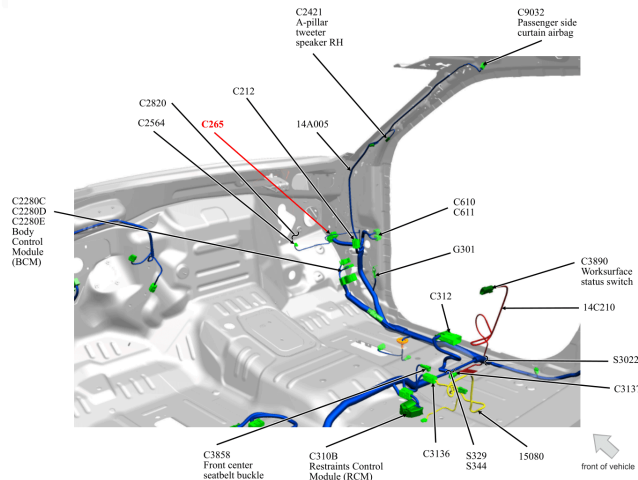

Locate the Passenger Seat Connector(C312)

Locate the large connector located beneath the passenger seat. Depress the tab and pull the latch backwards. Separate the connector and disassemble the **Male** end(Vehicle Side). Begin by pinning the connections below.

Now Pin these 2 wires into the connector (C312)

- **[PIN 21] (RED)**
- **[PIN 16] (BLACK)**

Locate the Firewall Connector(C265)

Locate the firewall connector and unlatch it similar to the passenger seat connector. After doing so, disassemble the **Female** end(Interior Side).

Now pin this wire into the Firewall Connector(C218A)

- **[PIN 21] (RED)**
