

2021-2023 Ford F-150 3rd Brake Light Harness **Installation Guide**

Begin this installation by removing the plastic trims along the driver side floor board & up towards the rear of the headliner.

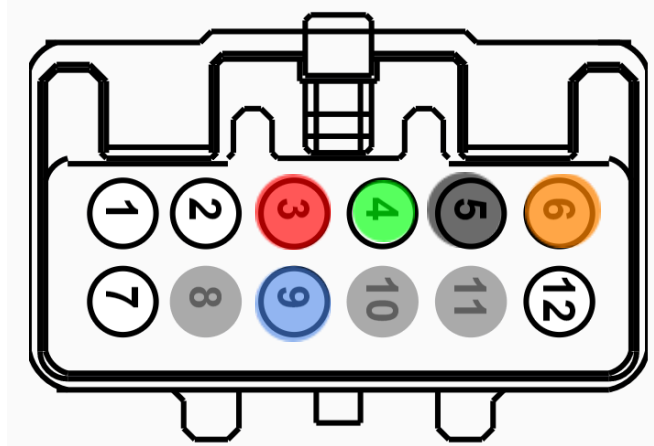

Locate & Disconnect the Third Brake Light(**C904**)

- Route the new harness from the third brake light(**C904**) down to the IPMA.
- Follow the driver side door well alongside the rear of the cab up to the third brake light.

Insert pins as followed into **C904**

Unlatch the white covering from the front of the connector and be sure to insert the pins into the rear of the connector.

****IMAGE IS THE FRONT OF CONNECTOR****

PIN 3 (C904) → PIN 20 (C242C)

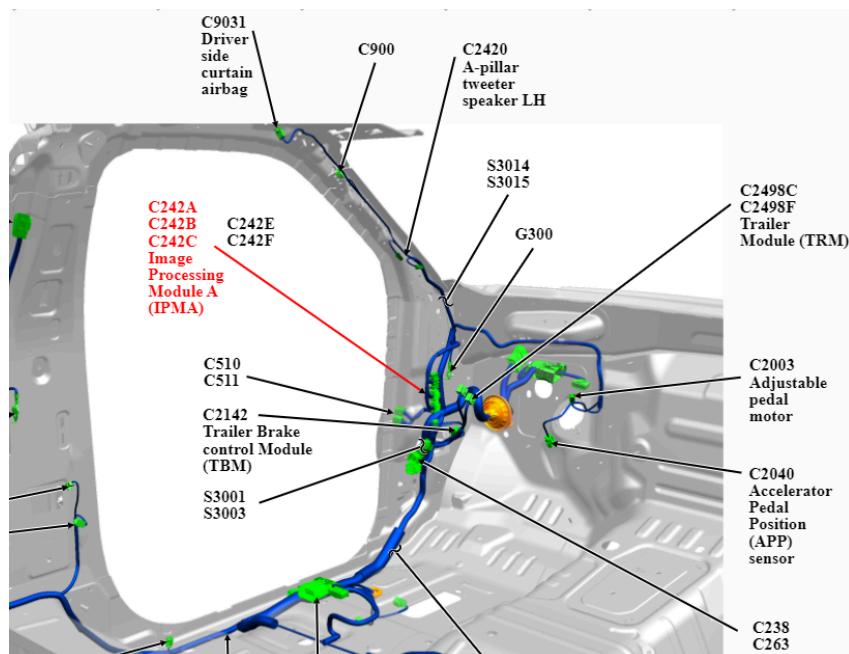

PIN 5 (C904) → PIN 10 (C242C)

PIN 4 (C904) → PIN 19 (C242C)

PIN 6 (C904) → TAP (P1 C242A)

PIN 9 (C904) → PIN 1 (C242B)

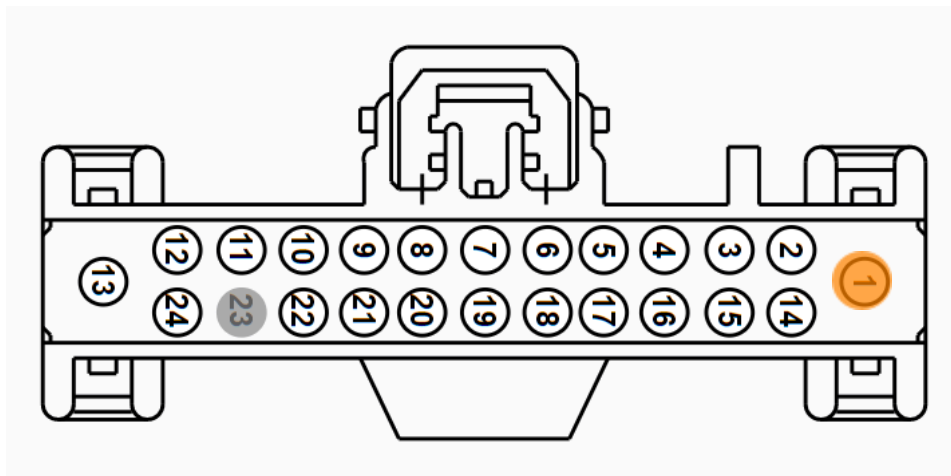

Locate the IPMA connectors. (**C242A, C242B, C242C**)

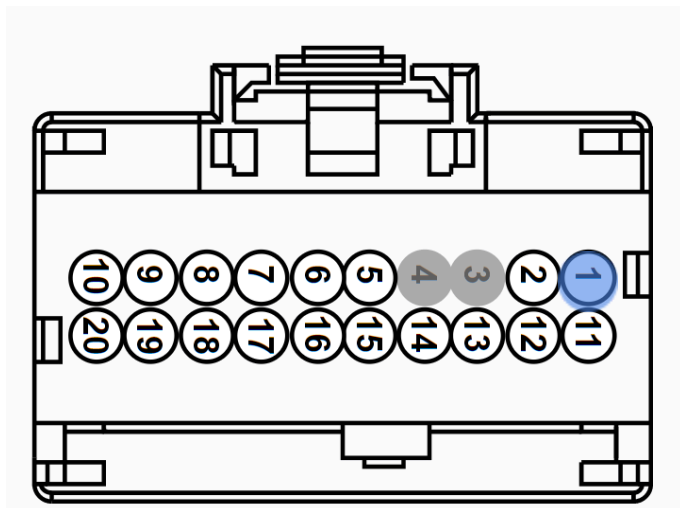

Begin to pin & tap the IPMA connectors. (C242A, C242B, C242C)

NOTE: Each connector(C242B & C242C) will have a tab on the front side of the connector that will need to be removed to push pins into the rear of the connector.

C242A (WIRE TAP THIS PIN)

C242B

C242C
